LINKBYNET
V I E T N A M

BPM/EAI DEVELOPER (M/F)

Since 2000, LINKBYNET is a growing company specialized in in the field of facilities management of e-Business Services, Information Systems, and Cloud Computing, with operations in France, Canada, Mauritius, and Hong-Kong for 800 clients.

Following its developing strategy, LINKBYNET decided to set up a production center in Vietnam (HO CHI MINH CITY) in Q4 2014.

If you wish to become a member of our great international team and join a group of young and motivated entrepreneurs with various backgrounds. This is a unique opportunity to gain valuable and challenging experience at a rapidly expanding high-tech company. You will be able to use your initiative and creativity to support our expansion.

To support our international growth, we are recruiting a **Business Process Management (BMP) Developer** to help us to ensure the application of our process on all over our sites.

You are very interested with technical project and you appreciate to work with operational people ? Come on and re-inforce our Development Department to take action on BPM and EAI project (based on Vdoc Software http://www.vdocsoftware.com/vdoc/easysite/ecm-en/en).

Your missions, if you accept it :

- Development of the process with Vdoc ;
- Integration of the process in the information system ;
- Implementation and control that the process function correctly ;
- Implementation of the adequate improvement (about the activities, the tool, the existing process and procedures) ;
- Support our teams (incident resolution, advices, …).
